YOU CHOOSE, WE PACK.

You can customize it however you want

Choose the product and size that best suit your needs, and we'll take care of the filling.

We

turn **raw nuts** and seeds into ...
Brands, experiences & business
From one certified factory.

OgloNuts® is a Moroccan snack manufacturer headquartered in Tetouan. We develop our own snack brands, craft roasted, coated, and flavored nuts and seeds, and reach consumers across Morocco and all over the world, from major GMS retailers and modern trade networks to local hanouts, neighborhood shops, and highway rest areas.
Inside one certified factory, we also support B2B partners with private-label solutions, product development, and export-ready production.

OgloNuts® brings roasting, coating, flavor development, packaging, and quality control under one certified operation. That means more control and more consistency for every product that leaves our hands.
